

Hello,

We are John and Trang Leete. We have been married for nine years, but have been unable to get pregnant. After grieving our infertility, we decided adoption would be a wonderful way to complete our family. We were overjoyed when we were able to adopt our son, Redford. We immensely enjoy being parents and hope for a second child that we could love, teach, and nurture.

We live in Huntington Beach, California about a mile from the ocean. I jog with Redford in the jogging stroller almost daily on a beach path close to our home. As a family we love to travel, hike, go to the beach and park, and spend time with family and friends. Redford has already been on several trips with us. One of them was to his aunt's horse farm in North Carolina. We want to give our children the chance to travel, daily excursions to the local beach or park, educational opportunities, and exposure to whatever hobbies they have talent for or enjoy.

John and I highly value education. John has a master's in electrical engineering from UCLA and works as a Senior Manager at Broadcom Corporation. I have a doctorate in clinical psychology and work part time as a psychologist at my private practice. We also are very dedicated to our Christian faith and our church community.

John's thoughts about Trang: Trang is an intuitive, caring person who values listening to and nurturing others. She likes a balance between physical and social activity and quiet reflective time. She enjoys yoga, reading, cooking, and kayaking. Trang loves being a mom and gets excited about ways she can help children feel understood and thrive. She likes teaching Redford and helping him express his feelings, personality, and creativity, and can't wait to do that with our second child.

Trang's thoughts about John: John is a very loyal, genuine, and funny person. He likes to serve others in practical and sacrificial ways. His hobbies include surfing, biking, boating, camping, and reading. John enjoys music and was an avid trumpet player throughout high school and college, winning numerous awards. John is a devoted and very involved father. Every day John reads to Redford, plays with him, and bathes him. I know he will be a "superdad" to our second child as well.

Redford is a sweet, cuddly, and active boy and we know he would make a great big brother. We are often told by others that he is a very happy and social child. He loves the outdoors, playing with sand toys, climbing playground equipment, sneaking food to our dog Nina, and smiling and waving at people wherever he goes. Redford likes to share and is so caring, playful, and patient with children. We know he will be a loving, fun, and protective older brother, guiding and safeguarding his younger sibling.

One of the most important relationships we have is with Redford's biological parents (Jenny and Timmy). They are college students who love Redford deeply, but were not ready to parent. We greatly respect, care for, and value them and have very regular contact with them. Jenny and Timmy would be able to give you more information about what we are like as parents from the perspective of the birthmom and birthfather. We hope that you will likewise want be involved in our future, as you helped to create it.

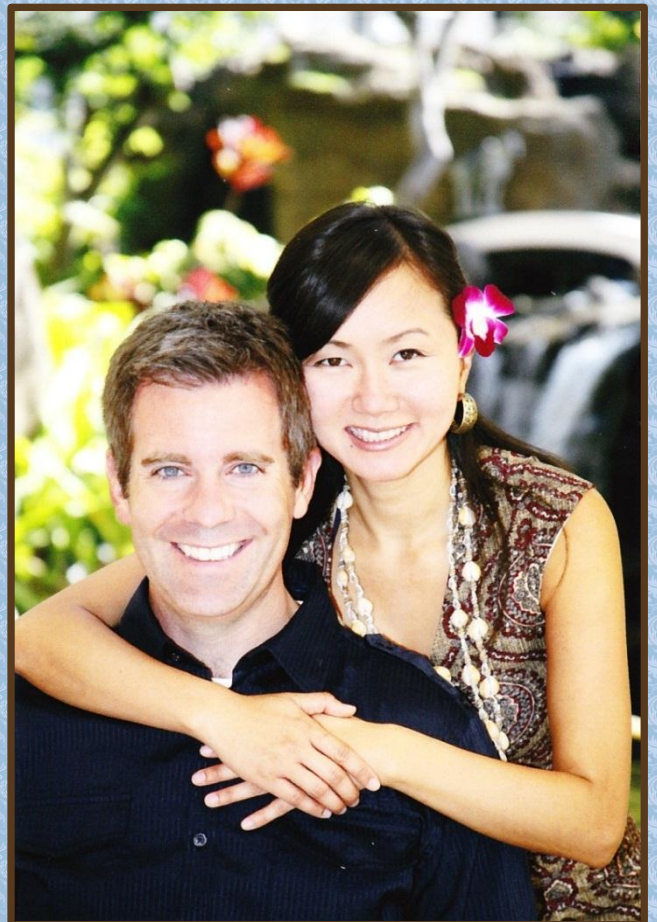

We understand that this may be a very difficult time for you. It requires courage and love to search for the right family for your baby. We hope to be a comfort to you and to be able to form a relationship with you that allows you to feel safe and comfortable during your pregnancy.

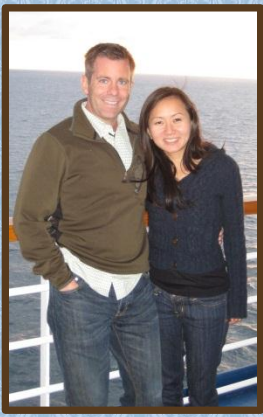

To help us with the adoption process, we have retained an attorney who limits his practice to adoptions. His name is Randy Hicks and he can be reached at 951-787-8300, or toll free at 1-800-756-6757. He can tell you more about us and adoption in general. We hope to be able to meet you and have the opportunity to get to know you better.

Warm wishes,

John, Trang, and Redford Leete
